

## Ultrasonic Surgical Gown Sewing Machine (SE-SS2012B)

### Summary

The Ultrasonic operation coat machine, it gets rid of the traditional needle seaming step, accord with human body engineering design, security, easy to operate; can for straight line and arc welding. It can meets the functional requirements of welding products, waterproofing, sealing, antibacterial etc. matching floral whorl can improve the welding product strong and beautiful.

## Technical Data

<b>Model</b>	SE- SS2012B
<b>Voltage</b>	220V
<b>Power</b>	1500W
<b>Frequency</b>	20KHZ
<b>Size</b>	1100*800*1300MM
<b>Weight</b>	130KG
<b>Productivity</b>	5-15M/MIN

## Functions and Features

- ✓ It doesn't need needle, save the cost, avoid the trouble of break needle.
- ✓ Humanized design, accord with human body engineering.
- ✓ Can do a straight line and curve suture processing.
- ✓ Coincidence with the request of watertight, airtight, gas defense (germ).
- ✓ The floral whorl designed according to the pattern, strengthen the processing product intension and sense of beauty.
- ✓ Can control the welding width, add capacity.

# Application

## Application of industry

1. Medical industry: surgical clothing, caps and shoes.
2. Industrial: anti-corrosion coat, electrostatic coat, strainer screen, bouffant caps.
3. Automobile industry: chair cover, headrest.
4. Other industry: suit cover, shower caps.
5. The samples of ultrasonic operating coat sewing machine

## Machine Details

The welding roller and the upper ultrasonic horn are made of special alloy steel, all kinds of welding roller design with customers' requirements; durable Taiwan original imported steel upper ultrasonic horn
